

ADDENDUM AUTHORIZING
COOPERATIVE PURCHASING
Sacramento County Purchasing Alliance (SCOPA)

2022-RFP-0126 IT Staffing

Introduction to SCOPA

SCOPA is a cooperative procurement alliance formed by Sacramento County, Sacramento, CA for the benefit and participation of surrounding entities. The group may include, but isn't limited to, entities such as local governments, educational institutions, special districts or non-profits, (known as Participating Agencies (PA)) that have joined together to leverage their joint buying power. By pooling their procurement needs, these agencies seek to secure better pricing, favorable terms, strengthen business relationships and offer a broader range of goods and services, often with reduced administrative burdens.

For awarded suppliers, engaging with an alliance (aka community cooperative) offers significant benefits. Suppliers gain access to a wider customer base through a single point of contact, simplifying the sales and procurement process. This streamlined approach reduces administrative burdens and opens opportunities for suppliers to secure contracts they might not have accessed independently.

Addendum – Cooperative Contract Participation

This Addendum modifies the Contract originally awarded by the County of Sacramento ("County") to allow the Contract to be used as a cooperative agreement by other public agencies through the Sacramento County Purchasing Alliance (SCOPA). When another agency utilizes a SCOPA offering, it is called cooperative purchasing.

Cooperative purchasing allows and encourages eligible public agencies to purchase directly from the awarded Contractor under the same terms, conditions, and pricing set forth in the original solicitation and resulting contract.

By signing this Addendum, the Contractor agrees to the terms and responsibilities outlined below to enable cooperative use of the Contract by Participating Agencies (PA).
